Why install air conditioning?
A new opportunity for your business

Diversification is the name of the game for building a successful business and installing air con is the perfect way to build up your skill set and customer base. With more people working from home and looking for better air quality indoors, adding air con to your services this year could mean a brand new market for your business and another seasonal income stream.

Why choose Bosch air conditioning?

Flexible temperatures

Cool down (or heat up) homes, conservatories or garden offices.

Air quality

Reduce allergens, odours and dust for fresher, cleaner air.

Installer friendly

Flexible options for easy installation and servicing.

System overview

Single split systems

- ▶ Quick, easy and simple to install
- ▶ One outdoor unit and one indoor unit
- ▶ Designed to deliver targeted cooling or heating
- ▶ Perfect for single rooms – lounge, bedroom, conservatory or home office.

Multi-split systems

- ▶ One outdoor unit and several indoor units – providing cooling or heating to multiple rooms
- ▶ Control each room individually, for customised temperatures around the home
- ▶ Choose between wall-mounted cassette, compact cassette or ducted indoor unit options
- ▶ Suitable for domestic, non-domestic and light commercial use.

Large split systems

- ▶ Powerful units designed to operate in larger spaces and open areas
- ▶ Installable in various configurations and locations – including ceilings, walls and floors
- ▶ Operable as a twin system – with one outdoor unit powering two indoor units.

Feature overview

Throughout this guide you will see the below icons which highlight the features and modes included with each unit.

	Single split		Single split		Multi-split
Model	 Climate 3200i		 Climate 7000i		 Climate 5000 M

*Additional Gateway G10-3 accessory required for CL3200i and CL5000i. **Terms and conditions apply. See website for details. ^CL3200i comes with a super ionizer. ^^CL7000 Variable humidity percentage to maintain the minimum desired humidity level during dry mode. †CL3200i includes 24-hr timer only.					

Product features

Advanced ionizer
Renders airborne pollutants harmless and increases indoor air quality.

Dry mode
Monitors and maintains comfortable humidity levels, whatever the weather.

3D air flow
Automatically adjusts fan speed and angle to distribute air evenly to adjacent rooms.

Intelligent motion sensor
The indoor unit has motion sensor which detects movement to determine human activity. If the sensor detects no movement it reduces the power, when it detects movement, it increases the power to the normal operation.

Indirect ventilation
In cooling mode, air grilles can be aligned upwards to avoid draughts.

Timer
Manual or automatic 24-hr timer to make sure rooms are cooled or warmed at the right times*.

Sleep mode
Automatically adjusts set temperature to aid better sleeping, before shutting off after eight hours.

Silent mode
Reduces the indoor sound of the unit to 21db(A).

Follow Me
Temperature is measured via the remote control for more precise comfort when people are in the room.

Frost protection
Keeps the room temperature above 8°C and prevents freezing when the house is unoccupied in winter.

Save mode
Uses less power and energy than standard mode.

Save Plus
Reduces energy consumption while maintaining the desired temperature.

Power control
Choose from 50%, 75% or 100% power to selectively save energy.

Energy monitoring
The HomeCom Easy app makes it easy to monitor power and energy consumption for different operating modes**.

i-Clean
Runs on full capacity to create a layer of ice on the evaporator, which then melts to clean the unit and remove dirt and bacteria.

Automatic restart
In the event of a power failure, the set parameters are retained and restored.

Voice control
Easily operate with voice^ as well as remote control.

*24-hr timer on the CL3200i as standard.
**Feature only available on the CL7000i.
^Additional Gateway G10-3 accessory required for CL3200i.

Easy to connect, easy to control

Control your Bosch air conditioning units anywhere, anytime.

Remote control
Set your customers up with the Bosch HomeCom Easy app, for remote control wherever they are. Our Gateway G10-3 accessory comes as standard with the CL7000i, or as an optional extra for other models.

Customised comfort
Change temperatures, air flow directions, weekly time schedules, fan speeds – and control schedules to guarantee perfect comfort when returning home.

Smart home compatible
With Matter, your customers can also choose to control their air conditioning using their Amazon, Google or Apple smart speakers – without needing custom apps or complicated set-ups.

Download the Bosch HomeCom Easy app here:

Climate 3200i

Heating, cooling and dehumidifying – all-in-one and easy to install.

Installer-friendly, and offering year-round comfort – the Climate 3200i has something for every household. Available in multiple power outputs, and with efficiency ratings up to A++, it’s flexible and efficient.

All-in-one comfort

A breeze for you to install and a breeze for customers to use, this is an all-in-one unit offering cooling, heating and dehumidifying in one compact unit.

Energy efficient

The Climate 3200i save mode feature can help reduce your energy usage – it’s clever, comfortable and convenient.

Multiple outputs

A solution for every household, with outputs ranging from 2.6kW to 7kW.

At a glance

- ▶ With smart connectivity, customers can connect easily to Alexa, Google Home or Apple Home with the HomeCom Easy app^.
- ▶ Washable filters and a built-in ionizer reduce dust, allergens and odours for improved indoor air quality.

See pages 6 – 8 for more information on the features included with this unit.

^{*}Terms and conditions apply.

Climate 7000i

The smartest and sleekest air conditioner we make – for busy, bustling homes.

Delivering cooler, cleaner air for busy households, the stylish Climate 7000i makes light work of bacteria, dust and odours with its advanced ionizer. An all-in-one solution with remote energy monitoring – delivering cooling, heating, dehumidifying and air purification from one unit – it’s the coolest and smartest air con we make.

Installer friendly

Easy to fit and easy to service, perfect for tight schedules and even tighter spaces.

Superior efficiency

Industry-leading heating and cooling efficiency, with SEER 9.4 is for 2kW which we have not launched, for the 2.6kW it is 10.1 and 5.3 SCOP values.

Easy energy monitoring

Check efficiency and energy consumption remotely, through the HomeCom Easy app.

At a glance

- ▶ Built-in bio filter and advanced ionizer makes light work of bacteria, dust and odours.
- ▶ With smart connectivity, customers can connect easily to Alexa, Google Home or Apple Home with the HomeCom Easy app*.

See pages 6 – 8 for more information on the features included with this unit.

Climate 5000 L split 4-way cassette

Comfort and convenience for small commercial spaces.

Designed for offices and retailers, the Climate 5000 L split 4-way cassette ensures that conditioned air is distributed evenly and efficiently across wide spaces.

Commercially flexible

Compatible with a range of BMS systems and third party components, including Modbus RTE, Bacnet, KNX and Intesis gateways. And with independent louvre adjustment control, units can be controlled separately in different spaces.

Refreshingly filtered

Built-in purifying filters eliminate up to 95% of dust particles, smoke, odour and pollen – delivering premium indoor air quality.

At a glance

- ▶ Drain pump and remote controller included
- ▶ All cassette units can be controlled with a smartphone^
- ▶ Optional wired controller CRC R-1
- ▶ LED screen on the indoor unit
- ▶ Turbo mode for rapid cooling and heating
- ▶ Easy and quick to service
- ▶ Low noise levels and improved air velocity with larger air outlet area.

See pages 6 – 8 for more information on the features included with this unit.

Climate 5000 L split ceiling/floor

Maximum comfort and conditioning for big, busy spaces.

Perfect for residential and commercial applications – like offices, conservatories and retailers – the Climate 5000 L split ceiling/floor offers flexible installation options, premium filtering and advanced air dispersion.

Stylishly flexible

Mount vertically on the floor or install horizontally on the ceiling, with a sleek design that will blend into any background.

Directional breeze

The 3D air flow feature uses directional air outlets to move up, down and across to direct air flow into every corner of the space.

Fully filtered

Purifying air filters eliminate up to 95% of dust particles, smoke odour and pollen – leaving cleaner air and better air quality. Built-in bio-filters also use biological enzymes and HEPA filters to catch bacteria, fungi and microbes.

At a glance

- ▶ Drain pump and remote controller included
- ▶ Optional wired controller CRC R-1
- ▶ Save and Gear modes to save energy
- ▶ i-Clean feature ensures the evaporator surface is free of mould, bacteria and fungi
- ▶ Turbo mode for rapid cooling and heating
- ▶ Remote on/off terminal
- ▶ LED screen on the indoor unit.

See pages 6 – 8 for more information on the features included with this unit.

Climate 5000 L split duct unit

For challenging locations and ceiling spaces.

Slim, compact and easy to install in tricky locations – the Climate 5000 L split duct unit is designed to solve air conditioning problems in rooms that are tight on space.

Install anywhere

Designed with a slim profile and choice of rear or bottom air inlets, this unit works well in even the tightest of spaces. Plus, connect to a range of BMS systems and third party components, including Modbus RTE, Bacnet, KNX and Intesis gateways.

Power and performance

With an external static pressure up to 160Pa, and a built-in drain pump to remove water from condensation up to 750mm, this is a high power, low maintenance solution.

Cleaner and quieter

With low volume operation and purifying filters that eliminate up to 95% of dust particles, smoke, odour and pollen – this unit works hard without disrupting the space it's in.

At a glance

- ▶ Drain pump included
- ▶ Wired controller and remote controller included
- ▶ Alarm output terminal
- ▶ Remote on/off terminal
- ▶ Turbo mode for rapid heating and cooling.

See pages 6 – 8 for more information on the features included with this unit.

Twin systems

Multi-split configurations for multi-use spaces.

Bosch Climate 5000 Large split units can be installed in a twin system configuration on selected models, offering premium flexibility for large, open spaces.

Tailor to your space

Bosch Climate 5000 Large split cassette, duct and ceiling/floor units can be connected to a single large split outdoor unit and operated in multi-split configurations. Perfect for open spaces where two indoor units are required – like offices and shops. Twin systems can also offer a solution where the space for multiple outdoor units is limited.

How it works

Two identical indoor units are required for a twin system. Both indoor units will operate together at the same time in cooling or heating mode.

One indoor unit will act as master and other one as secondary. The secondary indoor unit will mirror the master unit, both units will operate on the same settings in a twin system.

At a glance

- ▶ One outdoor unit connected to two identical indoor units
- ▶ If Wi-Fi connectivity is required, optional Gateway Connector G 10 CLC and Connect Key G-10 CL-1 is required only for the master indoor unit
- ▶ Indoor unit types can't be mixed in a Twin system. Available models and configurations can be found on the table opposite
- ▶ ECO, Gear, i-Clean, wind avoid me features are not available in a twin system.

See pages 6 – 8 for more information on the features included with this unit.

*Terms and conditions apply.

Climate 5000 M multi-split

Keep large venues comfortable with one outdoor unit.

Set your space up flexibly and easily – with a single outdoor unit providing comfort to wide open spaces via several indoor units – with the Climate 5000 M multi-split.

Multi-split

No more installing a separate outdoor unit for every indoor unit. With Climate 5000 M, you only need one outdoor unit to connect up to five indoor units. Fewer outdoor units needed, less to install, less space used.

Maximum flexibility

Give your residential and business customers a setup that suits them, with multiple configurations and a choice of power levels – all via a single outdoor unit.

Easy connectivity

Control the system in-person or remotely, using wired and infrared controllers or the HomeCom Easy app on a smartphone.

At a glance

- ▶ Connect one outdoor unit to several indoor units
- ▶ Can be configured in various ways, making it perfect for many applications
- ▶ The Climate 5000 M has seven different kW capacities ranging from 4.1 to 12.5 kW
- ▶ It is compatible with wall hung units, wall ducts and compact cassettes
- ▶ Can be controlled using our HomeCom Easy app, wired or infrared controls.

See pages 6 – 8 for more information on the features included with this unit.

Our air conditioning units can be combined in so many ways.

Please make sure the indoor units you plan to install are compatible with the outdoor unit combinations.

Scan the QR code or visit the link below to download the combination table that details the various configurations.

Accessories for Climate series

Product picture	Product name	Part number	Description
	G 10-3	7 736 606 771	► Wi-Fi gateway for CL3200i wall-mounted units, CL5000i 4 way cassette units, CL5000i 4CC 4 way compact cassette units, CL5000i D duct units and CL5000i CF ceiling/floor units ► Control your air conditioning unit via smartphone with the Bosch HomeCom Easy app (available free of charge on Apple Store and Google Store) ► A router with internet connection is required
	MC R	7 733 701 597	► MC R connection module for connecting wired controller CRC R-1 to CL3200i units ► Contact for external switching on and off ► Alarm contact
	G 10 CLC	7 733 701 951	► Gateway connector for connecting G10-3 Wi-Fi gateway to CL5000i 4CC cassette units, CL5000i D ducted units and CL5000i CF ceiling/floor units
	CRC R-1	7 733 701 903	► Wired room controller for all climate series ► Power supply via 230 V connection ► Control of diverse functions, e.g. weekly schedule, room temperature and operation mode, timer, etc.

Training

Ready to diversify your business?

Whatever you currently offer, whatever your experience, we'll support you on your journey to offering efficient, electrified solutions as part of your business.

Get up to speed for summer

Learn everything you need to know about installing, specifying and maintaining our Climate air conditioning products with hands-on training, tailored to installers who are new to air con. Train at your pace, at your choice of venue.

Scan the QR code or visit the link below to check out our training courses:
